

## Commodity Credit Corporation, USDA

## § 1421.305

to assure, to the extent practicable, the available payment did not produce plantings that otherwise would not have occurred and the CCC may deny payments in any instance in which there is reason to believe that the planting was done for that purpose. To that end, if the commodity involved has not been previously grown by the producer or is not one which is not predominately produced locally, the producer must submit evidence of seed purchases for planting the commodities and other evidence deemed needed or appropriate by the COC in order to assure that the program goals are made and that the land was not planted to an eligible commodity simply to obtain a payment. Also, the land to be eligible must, for the year involved, be grazed and cannot, during the crop year, be harvested at any time for any purpose, except as determined by the Deputy Administrator to accommodate producers with a history of double-cropping when the crop to be harvested is not the crop for which a payment is to be made under this subpart. Land will be considered grazed only to the extent that the crop on the land is consumed in the field as live plants by livestock for the normal period of time for grazing in the area.

(d)(1) A producer must, at the time of the agreement made under this part to obtain a payment, meet all other eligible criteria for obtaining loan deficiency payments.

(2) For producers of triticale who obtain a payment under this subpart the producer must enter into an agreement with CCC to forgo any harvesting of triticale on the acreage for which such a payment is made.

(e)(1) No payment will be made if the crop could not have been harvested because of weather conditions or any other reason.

(2) The producer must retain the control, title and risk of loss in the commodity for which the payment is sought from the date of planting through the date on which mechanical harvesting of the crop would normally occur.

(f) Producers who elect to graze 2002-2007 crop wheat, barley, oats, or triticale will not be eligible for an indemnity under the Federal Crop Insur-

ance Program provision of Chapter IV of this title or a payment under Non-insured Crop Assistance Program authorized under part 1437 of this chapter.

### § 1421.304 Time and method for application.

Application for the program provided in this subpart must be received, at the county office that is responsible for administering programs for the farm, no earlier than the date on which eligible crops would normally be harvested and no later than the final loan availability date as determined in accordance with § 1421.5. The application must describe the land to be grazed and, in accordance with standards set by CCC, the tract/field location. The COC will determine the first harvest date which shall take into account the date on which such crops are, locally, normally harvested for any purpose. Where multiple producers are involved, the form must reflect each producer's share in the crop. No producer must receive payments under this subpart except to the extent that the payments are commensurate with that share. Should a person who is entitled to receive a payment under this subpart die, that payment, as earned, may be made to other persons as provided for in the rules set out in part 707. Third parties may also receive payments to the extent provided for in that part for other situations involving an incapacitation of the producer. Refusals to allow CCC to verify information on any form or report utilized for this subpart can result in program ineligibility and producers must provide CCC and its agent to the property involved and to all records as may be relevant to the making of payments under this subpart. Further, false statements will disqualify the producer from the program and may be subject to other sanctions including criminal sanctions.
